

HOW CAREGIVERS CAN PREVENT HUMAN TRAFFICKING

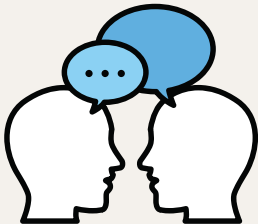

Educate about Consent and Boundaries

Teach children from a young age about body autonomy, boundaries, and consent (NetSmartz, 2021).

Recognize the Signs of Exploitation

Know the warning signs of trafficking, such as isolation, sudden wealth, or unexplained injuries (Polaris Project, 2022).

Monitor Online Activity

Be aware of who children are communicating with online and discuss the risks of sharing personal information (NCMEC, 2022).

Open Communication

Foster an environment where children feel safe discussing uncomfortable situations or suspicious behavior (UNICEF, 2020).
